Funding for Libraries

-  [Specific Funding Opportunities for Libraries with Deadlines](#)
The Grants Management Program has developed a master calendar of many of the grant deadlines available to support the work of libraries. The calendar is organized chronologically by deadline with sufficient information to support an initial search for specific details about fundable projects, range of funding amounts, basic requirements, eligibility, etc.
-  [Sponsors and Database Resources List for Libraries](#)
This list offers some examples of sponsors and databases which include funding opportunities for personnel working at the George A. Smathers Libraries. These resources match up with the interests of grantseekers in the Libraries and may be of benefit to other employees of libraries.

Funding Alert

Each month, a Funding Alert is published to highlight upcoming funding opportunities and deadlines related to the interests of personnel at the George A. Smathers Libraries. The document features deadlines, summaries of sponsor interest and eligibility requirements, as well as ranges of funding amounts, a link to the guidelines, and a link to previously awarded grants if this is available.
