Agenda

ASERL Fall Mtg and GPO update:

A broad discussion about the project and issues with GPO were covered. Julia Roles, University of Mississippi will succeed Judy Russell as the incoming Chair of ASERL Deans FDLDP Steering Committee as of Jan 1, 2012. She has communicated the change in leadership to GPO and has gained some ground in scheduling a meeting. Tentative dates have been suggested for early January.

The group briefly discussed a Library Journal article posted earlier in the day.

http://www.libraryjournal.com/lj/home/893063-264/the_future_of_the_fdlp.html.csp. Bill has already put in a personal response, but ASERL will also post a response once they have time to digest it.

WPA continues to work through the Missouri gift from earlier in the year. Digitization will cease on Dec 31 due to lack of money. Presentations promoting the WPA collection are getting underway including a joint program with the art museum. Santee plans to make these presentations accessible – possibly linking to their LibGuide.

ED continues to fill gaps. Processing materials received from UK – he was able to use about 15 microfiche from the set Santee had donated. Had a successful auto- match hit in the ASERL Disposition database.

PCZ continues to work on the material coming in from the museum and had almost caught up with digitization for all materials we have in hand. There has been a lot of activity in preparation for the celebration of the 100th anniversary of the opening of the canal – event schedule for 2014.

The ASERL/COE (gap analysis) database has been transferred to the University of Florida. Winston hopes to have the database transfer complete, to the point where we are able to accept records, in February.
