Dear Mary Alice:

Our thanks for your letter dated May 16, 2012 that affirms the "Southeast Region Guidelines for Management and Disposition of Federal Depository Library Collections (Revised April 2012)" is compliant with GPO requirements. We will circulate the revised document to the depositories in ASERL's 11 states so they are aware of the changes. Work to modify the disposition database to reflect these changes will begin shortly.

Kind regards,

John Burger
