# What's right? What's wrong? What can we do better?

- a) What are your desired goals for sharing print retention? *(please focus on journals)*
- b) What level of services do you expect from Shared Print partners?
- c) Does proximity to partners make a difference?
- d) What's behind the near-zero growth in retained titles in Scholars Trust?
- e) What assurances do you need to weed your print collection?

- Collaboration between print archiving programs
  - Scholars Trust, WRLC, FLARE, Western Regional Storage Trust (WEST), and Big 10 Academic Alliance (formerly CIC)
- Goal of increasing collaboration between these programs while increasing retention of print serials across the country
- **Retain 100K more titles by 2021**, ideally 3 copies of each
- **Common guidelines for metadata, gap-filling, last copy retention**
