

**Publisher information**

[Coherent Digital](#) was founded in 2019 by industry veterans, including the founders of Alexander Street, Eileen Lawrence and Stephen Rhind-Tutt.

Our mission is to *tame wild content*. We find content that's uncatalogued, undiscoverable, uncitable, prone to link rot, and likely to disappear. Content that might have been lost forever is stabilized, findable, and preserved in a permanent home.

**Product description**

[Mindscape Commons](#) is the first project to document and deliver hundreds of immersive and interactive videos and virtual reality (VR) experiences for teaching and research. It won a *2021 Innovation in Publishing Award* from Association of Learned and Professional Society Publishers (ALPSP). *Another major award* will be announced middle of October and posted [here](#).

- The first and largest directory and discovery service in this subject area.
- Serves programs in counseling, social work, clinical psychology, and related areas.
- Also relevant for training in nursing and allied health; first responders (mental health awareness); business (human resource and organizational development classes); sensitivity training (harassment, diversity).
- Designed so that only a laptop is required. If you have a VR lab, you can go further with the experiences, but a lab with head-mounted devices is not necessary.
- Created by Elizabeth Robey, who created the Alexander Street *Counseling and Therapy in Video* series. Takes ordinary video to the next level.
- Covers a broad range of treatment modalities and counseling topics, with special attention to issues of diversity, inclusion, and representation.
- Includes ~300 videos and VR experiences
  - o Exclusive immersive and interactive experiences created by Coherent in partnership with faculty.
  - o Additional items licensed from premium partners
  - o Select open-source content, enhanced and expanded by Coherent with added-value items (discussion questions, transcripts, teaching guides, assessments, and more)
  - o Directory links to important commercial listings
- All the videos are supported by rich support materials, including transcripts and teaching guides
- Everything is short-form; easy to add to course packs and syllabi, use in classes.
- Members can upload their original films, VR experiences, and research projects for inclusion in *Mindscape Commons*, or post links back to their websites.
